

SOLAR POWER FOR YOUR HOME

Are you looking to:

- Save money and add value to your home all while helping the environment?
- Take advantage of the 30% tax credit and lock in a low payment?
- Take control of your power and maximize your savings?
- Help reduce the strain on the electrical grid and reduce dependence on fossil fuels?

Solar power can help you achieve these goals:

- ✔ **Add Value to Your Home:** Experts say solar can increase your home's value by 4% or more (*Reference from a report by Zillow*).
- ✔ **Save Money:** Take advantage of the 30% tax credit and avoid high annual increases from utility companies. Most areas in CA have been hit with 8% hikes in recent years.
- ✔ **Take Control of Your Power:** Add a battery to your solar system to store energy and use it at optimal times for your family's needs.
- ✔ **Help the Environment:** Going solar reduces strain on the electrical grid and decreases dependence on fossil fuels.
